EDUCATION

The College of Wooster

B.A. in Computer Science; Minor in Young Adolescence Education Expected May 2026

Relevant Coursework: Algorithm Analysis, Data Structures & Algorithms, Software Engineering, Database Systems, Programming Languages, Machine Learning for Creative Practice, Mathematical Computing, Applied Calculus (Differential & Integral)

TECHNICAL SKILLS

Languages: Python, HTML/CSS, Java, JavaScript, C++, C, SQL

Frameworks & Libraries: ml5.js, p5.js, ComfyUI, Stream-Diffusion, NumPy, Pandas, Matplotlib

Developer Tools: Git/GitHub, MySQL, VS Code, Jupyter, Google Colab, LaTeX

Platforms: Ubuntu Linux, Unix, macOS, Windows

RESEARCH

Senior Independent Thesis — Computer Science

Wooster, OH & London, UK

The College of Wooster (started at Goldsmiths University, Study Abroad)

Sept 2024 – March 2026

- Improving controllability in image synthesis using structural conditioning (sketches) and Stable Cascade
- Began research at Goldsmiths University in London during study abroad; continued and completed at The College of Wooster
- Designed a drawing-to-image generation pipeline using ml5.js and extended ComfyUI with Stream Diffusion
- Developed a real-time visual interface for human-computer interaction experimentation with edge-detection and generative models
- Selected as a Top 3 Senior Thesis Project; manuscript in process of being archived in the College of Wooster repository

Sophomore Research Assistant

Wooster, OH

College of Wooster Biology Department — Dr. Laura Sirot

May 2023 – May 2024

- Conducted ecological experiments on mosquito populations and contributed to lab data collection
- Performed data entry, analysis, and visualisation for lab reports and grant submissions
- Translated scientific findings into accessible content for web and publication

EXPERIENCE

Peer Health Educator (Part-time)

Wooster, OH

The College of Wooster

Feb 2024 – Present

- Develop and lead campus programs on mental health, nutrition, and stress management
- Facilitate workshops and serve as a trusted resource for student and faculty wellness initiatives

STEM Instructor Intern

Pittsburgh, PA

Lavner Education

June 2024 – Aug 2024

- Taught coding (Python, Scratch), filmmaking, and design to 40+ middle and high school students
- Developed curriculum modules and technical documentation tailored to varied skill levels
- Resolved software and hardware issues to maintain an effective classroom learning environment

UI/UX Product Development Intern

California, US

Comet: College Applications Manager

Feb 2022 – May 2022

- Conducted usability testing and user interviews to inform product development
- Synthesised findings into annotated user-journey maps and a written report for the product team
- Collaborated with developers to translate research insights into design implementation

HONORS & ACTIVITIES

- Honours:** WeCode Fellowship; NCUR (National Conference on Undergraduate Research) Presenter; Top 3 Senior Thesis Project, College of Wooster
- Service:** Wooster Volunteer Network; Wayne County Humane Society
- Activities:** Women's Rugby (College of Wooster); Edgewood Middle School Tutor (Aug 2022 – May 2024)
